

AIR AS A SERVICE

AP07AV

Anti-Virus Air Purifier

 VPLUS habitat

ABOUT

Air As A Service increases quality in our lifestyle, and that is our mission at VPLUS habitat.

The use of the air purifier increases performance, ensures an additional level of health and safety and a significant reduction in dangerous pollutants, bacteria and viruses in the room air, resulting in restful sleep, improved fitness, concentration, well-being and vitality.

The AP07AV
Anti-Virus Air Purifier

Full Service and Filters
Included

All for less than 1 € a day

: Start From
Month x 36/ € 24.90

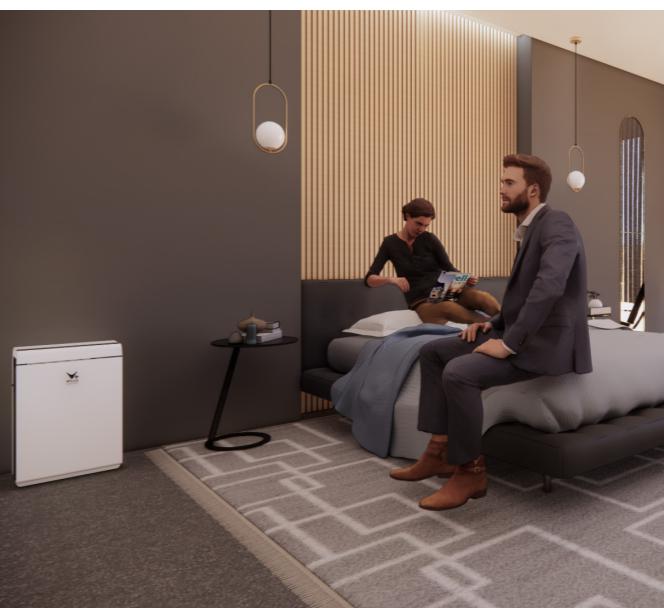

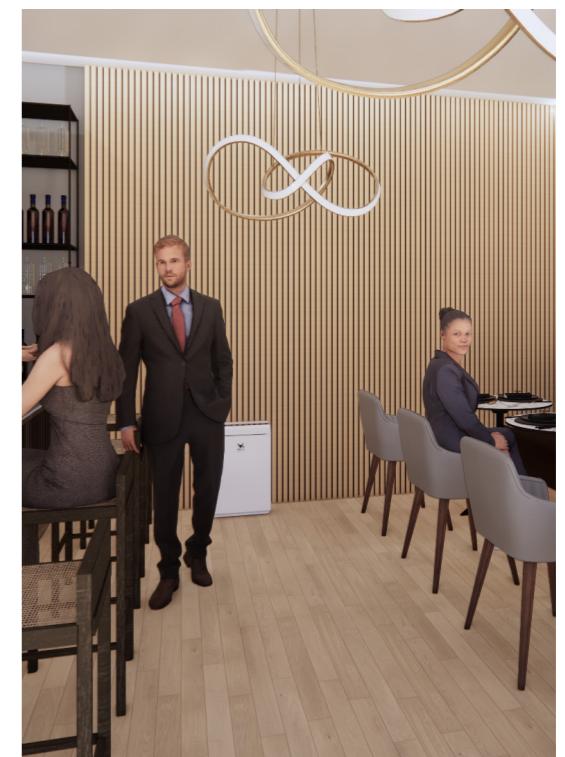

THE NEW NORMAL

Covid-19 highlighted that our air needs to be filtered and purified around us like the water we drink is.

Air as a Service is our approach to offer a full service of air for your working, learning, abiding spaces and more - anywhere time spent and have treated air control for your health.

How?

Our service ensures personal contact along with: yearly visits to change filters, for three years all in warranty, and at a comfortable monthly rate in result of less than 1 euro a day.

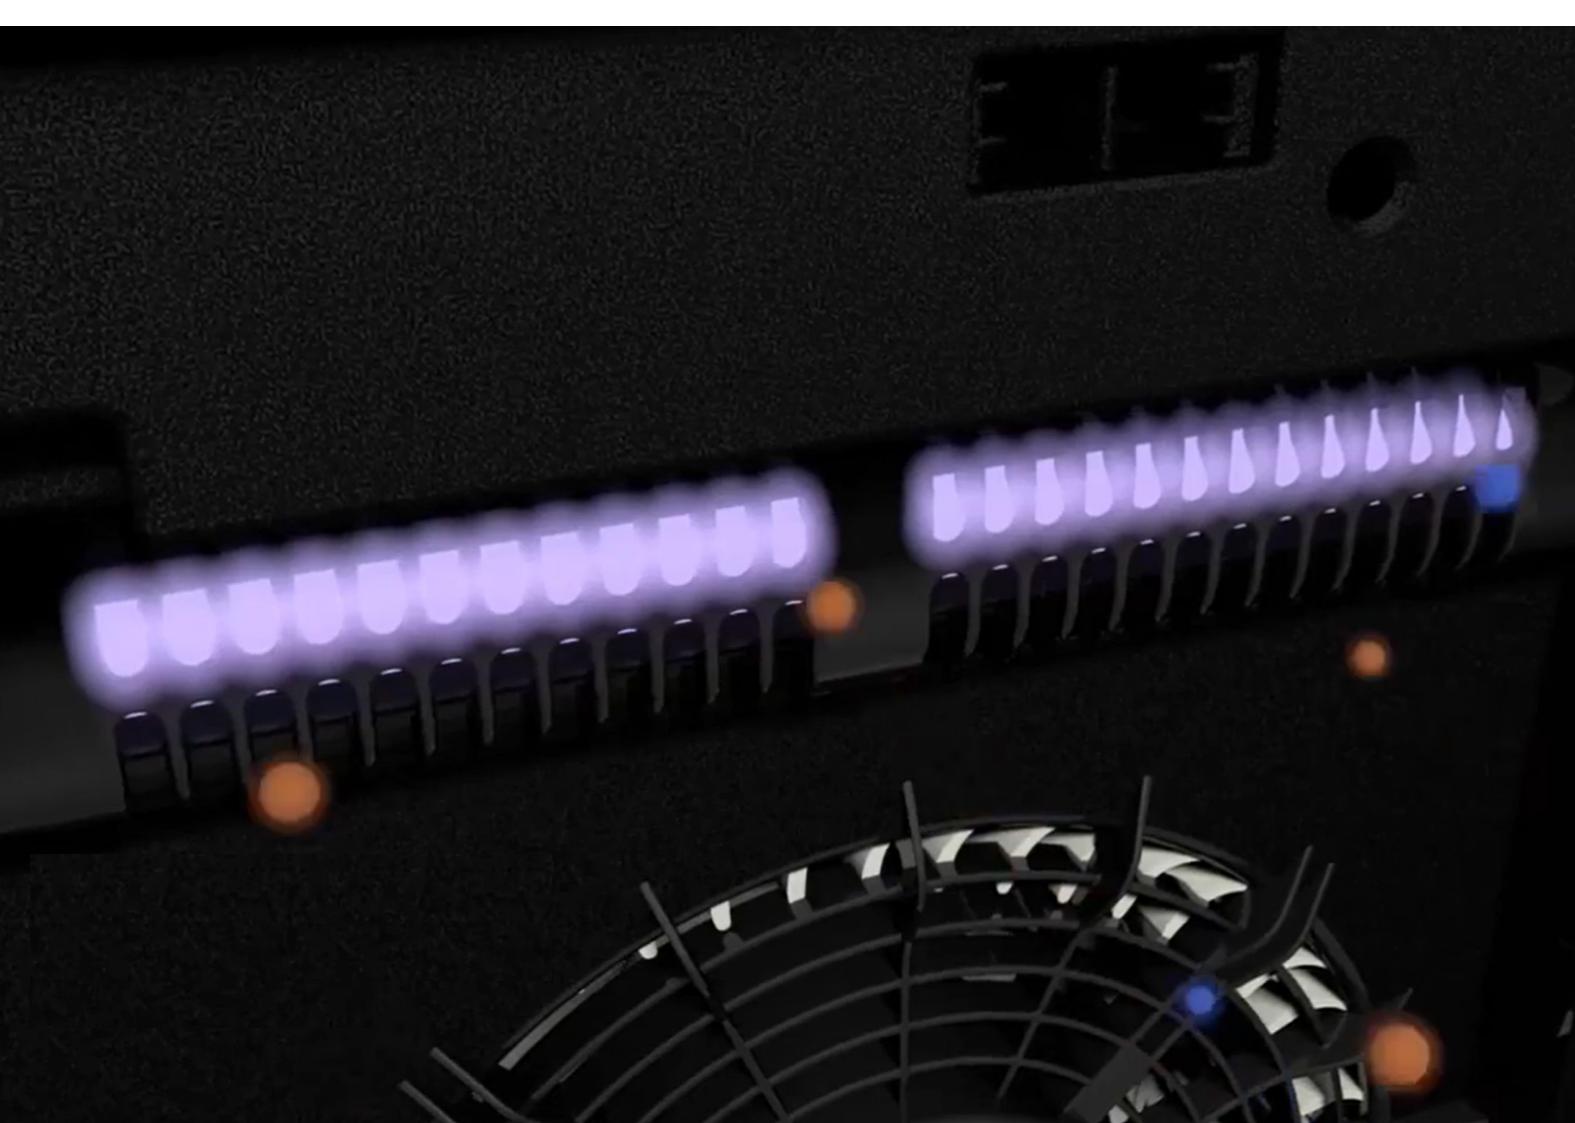

DESIGN

Light · Technical · Modern · Minimalist ·
Compact · Quiet · Seemless

Our design was studied to have the most efficient machine to make it's hard work quiet and and blended into the space. A cover of up to 50 sqm and placed anywhere in space that fits for you, the air purifier can detect the air particles and ensures you a safe environment with the help of:

- LED strip that changes that colors due to the level of air quality.
- Advanced laser particle detector on the face of the machine and in the sophisticated panel.
- Touch panel with different modes depending on the surrounding and the client.

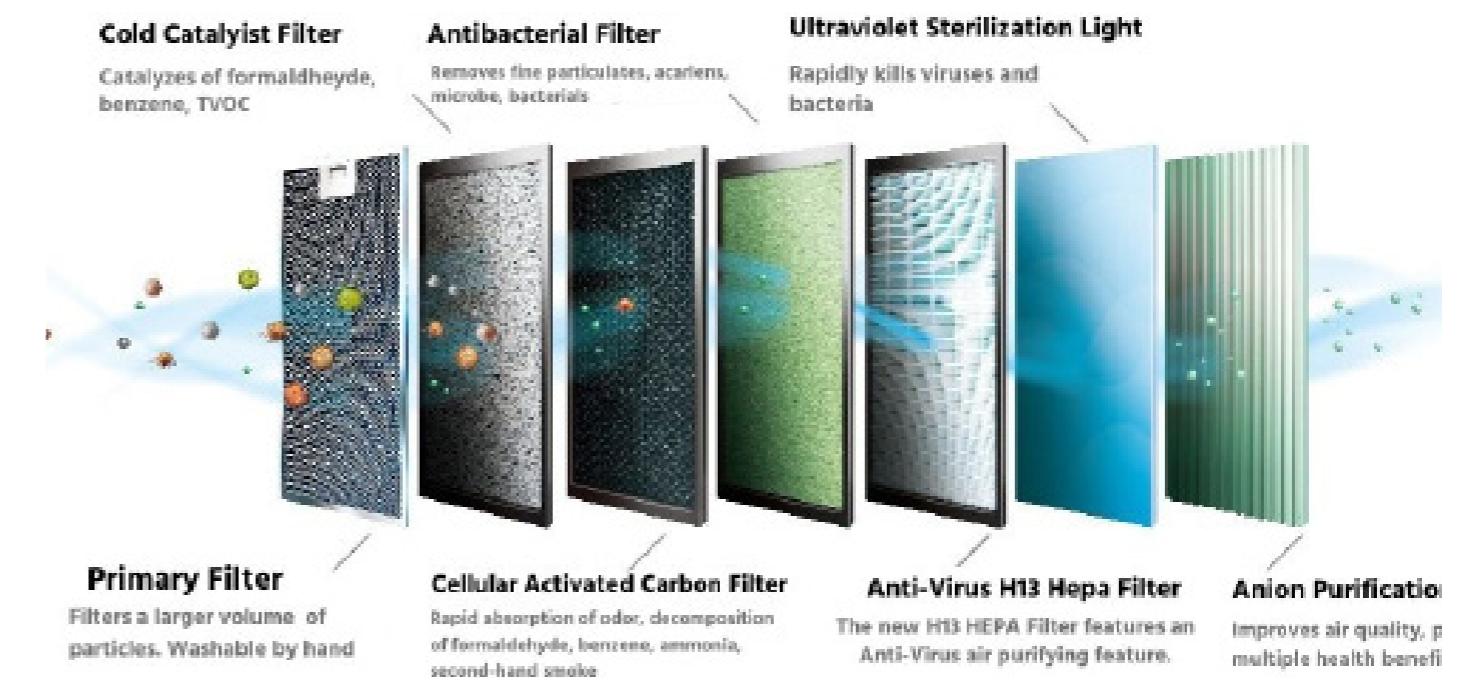

7-STAGE FILTRATION

Our device is unique in the market, easy to use, comfortable and has an elegant design. Has 7 filters that perform 7 stages of filtration and air treatment at 99.97% filtering rate.

1. Pre-filter
2. Cold Catalyst Filter
3. Carbon Filter
4. Antibacterial Cotton Filter
5. High Efficiency HEPA13
6. UVA Light
7. Anion purification

Sophisticated Control Panel

AIR POLLUTION

Where does it really truly affect us and how can we mitigate it within our interior spaces?

Purification in spaces became crucial now more than ever, especially public spaces with a lot of movement and trafficking.

Not only physically pollution can harm you, but articles suggest they can harm mentally and emotionally as well.

Click on any of the images to study more from our articles with the air in - clinics, schools and workspaces.
